## Organisational Chart and Process

### **Nature and Extent of Involvement of Faculty and Students in Academic Affairs / Improvements**

Our faculty members analyze each student strength and weakness. A structured plan is prepared for the students accordingly. The students are mentored and guided to improve their academics and pursue their areas of interest. The students are encouraged to participate in events / symposiums conducted by external bodies. The students too organise technical programmes and invite other college students to participate. Internal tests and exams are conducted regularly to assess the academic level of the students. Resource persons are invited to deliver guest lectures and to conduct seminars and workshops. Our faculties also participate and present in National and International Conferences. They publish research papers in reputed journals. Faculty development programmes are also conducted for the faculty members to improve their knowledge, enhance their teaching quality and maintain their professionalism.

### **Mechanism / Norms and Procedure for democratic / good governance**

Our Trust, The Muslim Educational Association of Southern India (MEASI), which was established in the year 1902, is a truly democratic set up association. It is a non-profit organization and its mission is to provide quality education to the poorest sections of the society. Our association is one of the oldest trusts in the country. The MEASI trust manages multiple educational Institutions. The objective of the association is to impart higher education to the economically backward students of the Muslim community. The main objective of the association is to make higher education an attainable dream to the youngsters seeking it.

The members of MEASI are elected through an electoral process. Each member serves tenure of three years in their respective posts. The Executive Committee comprises of sixty members along with office bearers to oversee the day to day affairs of the Institution. The MEASI Institute of Information Technology functions under the aegis of MEASI. The needs of the students and faculty members are addressed by the Management immediately. The top level of the management is approachable and has an open mind in discussing and solving the issues that are put forth. Our Management and the Institution always strive towards the betterment of the students and faculty members.

### **Student Feedback on Institutional Governance / Faculty performance**

At the end of each semester, we obtain a feedback through CAMU, an ERP software. The students give their feedback about the Institution, faculty teaching quality, teaching methodology, attitude, infrastructure etc. The feedback will be sent to the Committee consisting of board members in-charge of the Institution. They will report the genuineness of the feedback to the top management. We are constantly striving to impart good quality education and enhance our quality every year.

### **Grievance Redressal Mechanism for Faculty, Staff and Students**

A three member Committee is constituted under the Chairmanship of the Director to address issues and grievances. The grievances from the students and the faculty members are reported to the Committee. The Committee will initiate a suitable enquiry based on various inputs and assess their genuineness. Finally, the aggrieved faculty or student issues are addressed and a solution is provided to appease all parties involved.
